

2 DAYS

Intended Audience

This intermediate course is for:

- Senior executives and solution managers, Line of Business Owners, CTO, Product / Program Directors, Lean-Agile Leaders, Agile PMO and Agile change agents and consultants.

Prerequisites

None

Certification

SAFe™ Product Manager / Product Owner

Overview

This two-day interactive workshop begins with the principles of SAFe™, Lean thinking tools, Agile development practices at scale, and an overview of the Scaled Agile Framework®. Teams will then learn the Product Manager and Product Owner roles in the enterprise, how to manage the enterprise backlog, delivering features, agile requirements, the events within SAFe, and finally, stakeholder management. At the end of this workshop, attendees will have the tools and knowledge they need to write Epics, Features, and User Stories within the Scaled Agile Framework, and have a solid foundation on how to manage programs in the Lean-Agile Enterprise.

Learning Outcomes

- Product Manager and Product Owner roles in the enterprise
- Enterprise Backlog Management
- Delivering Features in the Enterprise
- Agile Software Requirements
- SAFe events and process
- Stakeholder Management.
