None

# SAFe Scrum Master

## Overview

In this one day course you will learn the critical skills required to create high performance teams.

SAFe Scrum Master can be delivered as part of a SAFe ART or independently to Scrum Masters who wish to build their skills in an enterprise context.

## Learning Outcomes

- Learn how to build high performance teams, and the concepts of forming, storming, norming and performing.
- Learn how to be a Scrum Master and serve your high performance team.
- Absorb the basic concepts of a Scrum Master, including the Scrum Master as a Servant Leader and how to coach your team.
- Form your team with insights on team structure, team purpose, and how Scrum ceremonies foster collaboration.
- Avoid roadblocks by learning the five dysfunctions of a team.

## Content

- Building High-Performance Teams
- Forming
- Storming
- Norming and Performing: A Look Ahead.
